2012/2013

Wedding Website

Package Includes:

- Fully Functional wedding website, chosen from a range of templates.
- A own personalised URL (eg http://quartz.za.net/bridesname_groomsname/) to pass to guests or include on your Save the Dates/Invitations!
- Password protected, back-end access so you can update as you please, no assistance or HTML knowledge needed
- Blog Facilities so you can keep your guests/friends updated at all times through your planning!

Features:

- Add photos to your blog!
- A page all about the Bride & Groom and how they met!
- A page with all your wedding details, incl venue and map, accommodation options in the area, etc!
- Pages dedicated to your bridal party, gift registries, bachelor and bachelorette's parties, and more!
- A comments feature so friends and family can let you know what they think!

Free Extras:

- Give your bridal party their own password and limited access for them to update guests on their planning of the bachelor or bachelorette's parties.
- Widgets such as wedding countdowns, calendars, etc
